Weighting

Look over the criteria below. Identify the criterion that you value the most. Give that criterion a weight of 100. Weight all other criteria relative to that most valued criterion.

Color:	<input type="checkbox"/>
Label: Magnitude/Probability of impact	
Value:	<input type="text" value="100"/>

Color:	<input type="checkbox"/>
Label: Level of influence	
Value:	<input type="text" value="90"/>

Color:	<input type="checkbox"/>
Label: Level of interest	
Value:	<input type="text" value="80"/>

Color:	<input type="checkbox"/>
Label: Urgency/ Temporal immediacy	
Value:	<input type="text" value="70"/>

Color:	<input type="checkbox"/>
Label: Proximity	
Value:	<input type="text" value="60"/>

Color:	<input type="checkbox"/>
Label: Economic interest	
Value:	<input type="text" value="50"/>

Color:	<input type="checkbox"/>
Label: Rights	
Value:	<input type="text" value="40"/>

Color:	<input type="checkbox"/>
Label: Fairness	
Value:	<input type="text" value="30"/>

Color:	<input type="checkbox"/>
Label: Underrepresented/Underserved representation	
Value:	<input type="text" value="20"/>

Beneficiary Definitions

Agricultural	Irrigators	Irrigator, irrigation, watering
	CAFO Operators	CAFO; feeding operations or feed lots for livestock (cattle, hogs, or poultry), livestock production
	Livestock grazers	Ranches or grazing for livestock (cattle, hogs, or poultry), cattle range
	Agricultural processors	Agricultural or farm processors or processing; agricultural or farm production or products (but not seafood)
	Aquaculturalists	Aquaculture or aquafarming; farms or hatcheries for shellfish, fish, oysters, clams, mussels, shrimp, or aquatic plants
	Farmers	Farmer, farming, farm (but not aquaculture); plantation, crops, orchards
	Foresters	Forester or forestry; tree farm; silviculture
Commercial/ Industrial	Food extractors	Food extraction; hunting or trapping for livelihood, job, or commercial purpose; commercial or artisanal fishing, shrimping, clamming
	Timber/Fiber/ Ornamental extractors	Timber, fiber, wood, or ornament extraction or harvest for commercial or business purposes; logging or logger; oyster harvest, abalone collecting
	Industrial processors	Industrial processing or production, ; manufacturing; textile, steel, or industries or production; mills; oil and gas industry (including extraction & processing); mining; food (meat, sugar, grain, vegetable, fruit) processing
	Industrial dischargers	Industrial discharge or wastewater
	Energy generators	Power plant, electric, hydroelectric; solar, wind, hydro, renewable, nuclear power or energy; thermoelectric cooling
	Resource-dependent businesses	Businesses that rely or depend on local resources; marina, tourism, , resort, hotel, shop, restaurant, local business, developed or working waterfronts; outfitter, fishing/hunting guide; fishing charter, tour boats
	Pharmaceutical/ Food supplement suppliers	Pharmaceuticals, medicines; food supplements, vitamins;
	Fur/Hide trappers/hunters	Hunting or trapping for animal skin, hide, fur
Governmental/Municipal/ Residential	Municipal drinking water plant operators	Drinking water, municipal water supply
	Wastewater treatment plant operators	Wastewater or sewage treatment; treatment plant
	Residential property owners	Homeowners, private land, or property, landowner; Residential areas, neighborhoods, or development
	Military/Coast Guard	Military, coast guard, navy, army, shipyard
Commercial/ Military Transportation	Transporters of goods	Goods transport, shipping, cargo, commercial navigation, port, vessel, barge, freight, bulk commodities, containers
	Transporters of people	People transport, cruise, ferry, ferries, airplane, airport, train, harbor

Attribute Definitions

Attributes

Subsistence	Water subsisters	Cistern, rain garden, rain barrel; water for subsistence, including tribal or traditional use
	Food subsisters	Food for subsistence; hunting, fishing, collecting, or gathering food to cook or eat; digging shellfish or clams; including tribal or traditional use, wild rice
	Timber/Fiber/Fur/ Hide subsisters	Collect timber, fiber, fur, or hides for subsistence, including tribal or cultural traditions; firewood
	Building material subsisters	Collecting building materials for subsistence, including tribes or cultural traditions
Recreational	Experiencers/ viewers	Bird, wildlife, or fauna watching; nature appreciation; hiking, biking, camping, climbing, outings, sunbathing, sightseeing, beach combing; viewing (i.e., observing, enjoying, experiencing, relaxing, outings) nature (e.g., outdoors, wildlife, wildflowers, animals, trails)
	Food pickers/gatherers	Collect or gather berries, mushrooms; dig for shellfish or clams; wild rice
	Hunters	Hunting for recreation or sport
	Anglers	Anglers, fishing for recreation or sport
	Waders/Swimmers/Divers	Snorkeling, SCUBA, swimming, beachgoing, wading, diving, bathing
	Boaters	Boat, canoe, kayak, rowing, sailing, jet ski, surfing, watercraft
Inspirational	Spiritual and ceremonial participants	Festival, observance, religion, ceremony, baptism, wedding, spiritual, worship, prayer
	Artists	Writer, author, poet, painter, artist, sculptor, carver, pottery, photography
Learning	Students and educators	Educational use, resource, interest, or opportunity; academic, teaching, professor, student; secondary schools (elementary, middle, high); school children; field trips or outdoor laboratories
	Researchers	Opportunities or interest for significant scientific research and improving scientific knowledge, investigation, research, questions
Non-Use	People who care (existence)	Caring, concern, conservation, or appreciation by the community (citizens, stakeholders, people, residents, anyone, everyone, children, families); Existence value; History; Culture
	People who care (option, bequest)	Bequest, option, legacy, or heritage value; future or next generation (grandchildren)

Beneficiaries

Identify the types of beneficiaries making up each stakeholder-group by percentage.

Jedi

Category	Subcategory	Jedi
Agricultural	Irrigators	
	CAFO Operators	
	Livestock grazers	
	Agricultural processors	
	Aquaculturalists	
	Farmers	
	Foresters	
Commercial/Industrial	Food extractors	50
	Timber/Fiber/Ornamental extractors	50
	Industrial processors	
	Industrial dischargers	
	Energy generators	
	Resource-dependent businesses	
	Pharmaceutical/Food supplement suppliers	
	Fur/Hide trappers/hunters	
Governmental/Municipal/Residential	Municipal drinking water plant operators

Attribute Definitions

Weather	Weather (e.g., climate, seasons, rain, temperature, snow, ice, summer, spring, winter, autumn) available to enjoy (e.g., for recreation, tourism, sunbathing) or favorable for activities (e.g., agriculture)
Air	Clean, safe, healthy air for breathing; Availability of air for industrial discharges or emission, to transport and ameliorate odors (e.g., smells, fumes), or to transport and deposit pollutants (e.g., deposition, rain fall);
Wind	Wind available to enjoy (e.g., boating, surfing, recreation) or for commercial uses (e.g., energy, electricity, power)
Atmospheric Phenomena	Generate or create fog; aesthetic, scenic, or inspirational value of clouds, sunrise, sunsets, morning, or twilight;
Sounds and Scents	Natural sounds, noises, scents, and smells (i.e., sensory, olfactory, auditory resources) available to hear and enjoy, including bird songs or calls, croaking, chirping, rustling, splashing, thunder, ocean waves, flowers, plants, berries, the beach
Viewscapes	Opportunities for scenic (e.g., beautiful, inspirational, spectacular) views (e.g., viewscape, vista, landscape, overlook)
Open Space	Open space (e.g., greenspace, greenways, parks, nature preserves) that is available to enjoy, appreciate, or other opportunities (e.g., aesthetics, recreation, scenery)
Presence of the Environment	Opportunities for recreation (e.g., camping, hiking, diving, snorkeling, swimming, sunbathing, sightseeing, walking, biking, outing, trails), aesthetic enjoyment (e.g., atmosphere, appreciation), or non-use value (e.g., existence, bequest); Provide or generate clean air; Purify, filter, buffer, or clean air pollutants or the atmosphere; Provide or improve air quality; nitrogen fixation; improve respiratory health or reduce asthma; reduce carbon in the atmosphere; Erosion and flood control; Shoreline protection (e.g. dunes, mangroves, reefs); Filtering (e.g. buffering) sediment, nutrients, or water pollutants; Shading by trees (e.g., canopy cover)
Land	Availability of land, coast, or wetland for residential or commercial development, including sprawl, or for disposal sites; Land identified for protection (e.g. preserve, restore, conserve, easement, trust); Public lands of unspecified use
Water	Water as a resource for consumption (e.g., drinking); a resource for industry (e.g., cooling, hydroelectricity), households (e.g., rain barrels), or agriculture (e.g., irrigation); as a medium to receive & dilute discharges (e.g., wastewater, ballast) or for transportation (e.g., boat or ship navigation)

Attribute Definitions

Attributes

Soil	Availability of soil (e.g., dirt, sediment) for farming, gardening, to absorb effluent, as a nutrient source for the estuary (i.e., sediment flux), or for other uses, including soil microorganisms that affect quantity and quality through decomposition or nutrient availability (e.g., nitrogen, carbon)
Substrate	Natural substrate, ground, or surfaces (e.g., clay, chalk, bedrock, limestone, granite, marble, sand, oyster reef, renourished beaches) available for construction, agriculture, aquaculture, or other uses
Timber	Natural wood available as timber, logs, or lumber for household, commercial, or industrial uses
Fiber	Fiber (e.g., salt hay, grass, reeds) collected, harvested, or gathered for use, subsistence, or other benefits (e.g., products, milling, industry, pottery)
Natural Materials	Natural materials that are collected for artistic use (e.g. ornaments or jewelry) or consumption, including rocks, shells, coral skeletons, clay, acorns, honey, maple syrup, sand;
Fauna	Wildlife or animals, including terrestrial and aquatic mammals, birds, reptiles, amphibians, and insects that are unique (e.g., charismatic, endangered, biodiversity, beauty, special), enjoyed as a resource (e.g., observation, watching, collecting, hunting, trapping), or identified for conservation (e.g., protect, restore, preserve)
Fish	Wild fish or shellfish (e.g., salmon, oyster, pike, crab, mullet, mussel, bass, herring, grouper, snapper, alewife, flounder, abalone, scallop, worm, clam, geoduck) harvested for seafood consumption or other industrial, commercial, recreational uses; Fish that are unique (e.g., charismatic, endangered, biodiversity, beauty, special) or identified for conservation (e.g., protect, restore, preserve)
Flora	Flora (e.g., grass, kelp, seaweed, vegetation, mangroves, trees, moss, sedge, lichens, berries, cypress, pine, oak, elm, etc.), including plant parts (e.g., flowers, branches, sticks), that are unique (e.g., charismatic, endangered, biodiversity, beauty, special), enjoyed as a resource (e.g., observation, sightseeing, collecting, consumption, cuttings), or identified for conservation (e.g., protect, restore, preserve)
Fungi	Wild fungi (i.e., mushrooms) that are unique (e.g., charismatic, endangered, biodiversity, beauty, special), enjoyed as a resource (e.g., observation, sightseeing, collecting, consumption), or identified for conservation (e.g., protect, restore, preserve)
Pollinators	Bees, butterflies, or other animals (e.g., bats, birds) that distribute pollen for plants (e.g., flowers, flora, crops, farms, agriculture, gardens)
Depredators and (Pest) Predators	Biological control (biocontrol); control of pests, invasives, exotics, or nuisance species by predators; natural control or populations or species
